DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on 11/8/04 has been entered.

2. Claims 11-18, 20 and 22-24 are again withdrawn from consideration, since the composition claim from which they depend is no longer considered allowable.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1-3, 5-7, 9 and 10 are rejected under 35 U.S.C. 102(b) as being anticipated by Baker Hughes INTEQ, Clear Drill, Version 3, July 1, 1994.

Baker Hughes teaches a clear drill fluid which comprises cesium formate within the scope of the present invention (SG CLEAR-DRILL C Brine), and citric acid which is

a chelating agent (see page 12). The pH of 10.8 taught by Baker Hughes anticipates the about 11 taught in claim 7.

5. Claim 8 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

6. Claims 25-59 are allowable over the art of record.

7. Applicant's submission of the RCE and information disclosure statement has resulted in the rejection of some claims of record.
